Lagos, Nigeria

I am a skilled MERN stack developer and technical writer dedicated to creating dynamic, user-focused web applications and impactful documentation. With a passion for innovation and problem-solving, I deliver efficient, high-quality solutions that drive results and exceed expectations.

Work Experience

Technical Writer (Contract)

Dec 2022 - Apr 2023

Webiny | Remote

Created innovative web applications, including a voice-activated news blog and an advanced real estate search platform, leveraging Webiny CMS.

Documented processes to tutor developers, showcasing the product's ease of use and efficiency, driving adoption and engagement.

Technical Writer (Contract)

Jul 2022 - Feb 2023

OpenReplay Blog | Remote

Developed dynamic web applications using Vue, React, and Node.js accompanied by clear, engaging documentation detailing tools, processes, and innovative packages.

Streamlined workflows for developers, delivering clarity and usability to boost productivity and drive project success.

Front-end Developer Intern

Oct 2022 - Dec 2022

Hotels.NG (HNG) internship 9.0 | Remote

Collaborated with a dynamic team of 6 developers and 5 designers to build an engaging kid's story illustrator web application using React, Node.js, SCSS, and Stable Diffusion AI.

Contributed significantly by offering technical support and ensuring the product is accessible.

Full-stack Web Developer Intern

Oct 2021 - Jul 2022

SmarterHub Global | Port-Harcourt, Rivers State

Reviewed web designs, collaborated with my colleagues to build user-friendly web applications using Reacts and Nodes, and enhanced client experiences.

I advanced my professional skills, cultivated exceptional time management abilities, and acquired in-depth practical experience working with cutting-edge JavaScript libraries and packages.
